

# Fortifying the Platform Economy: Cybersecurity Insights for Africa

Dr Happy sithole

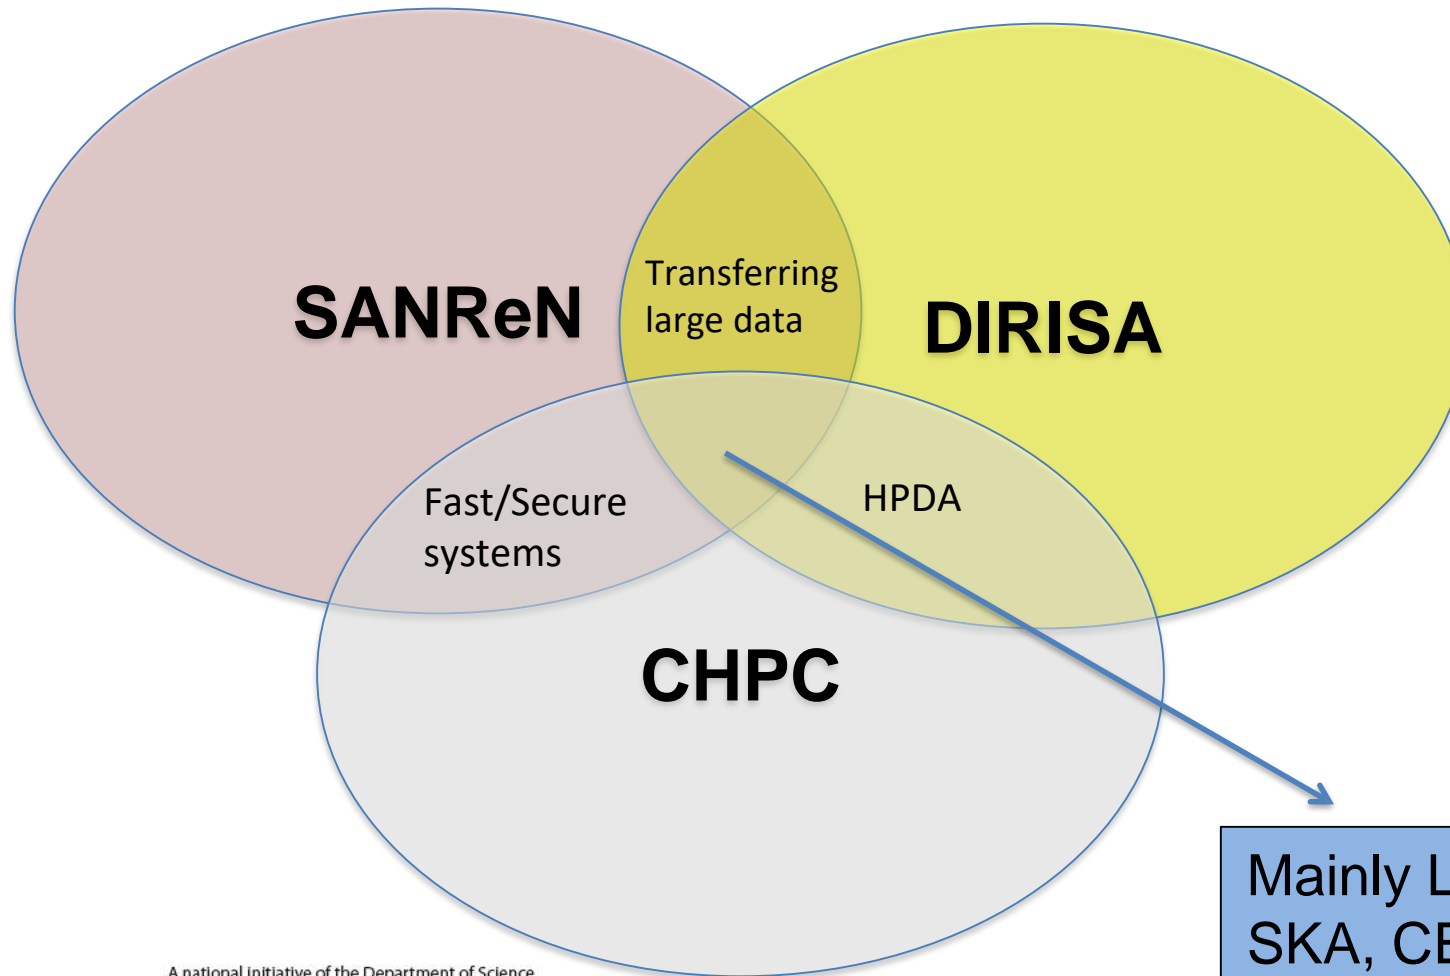

14 September 2023

A national initiative of the Department of Science  
and Innovation and implemented by the CSIR

**science & innovation**  
Department  
Science and Innovation  
REPUBLIC OF SOUTH AFRICA

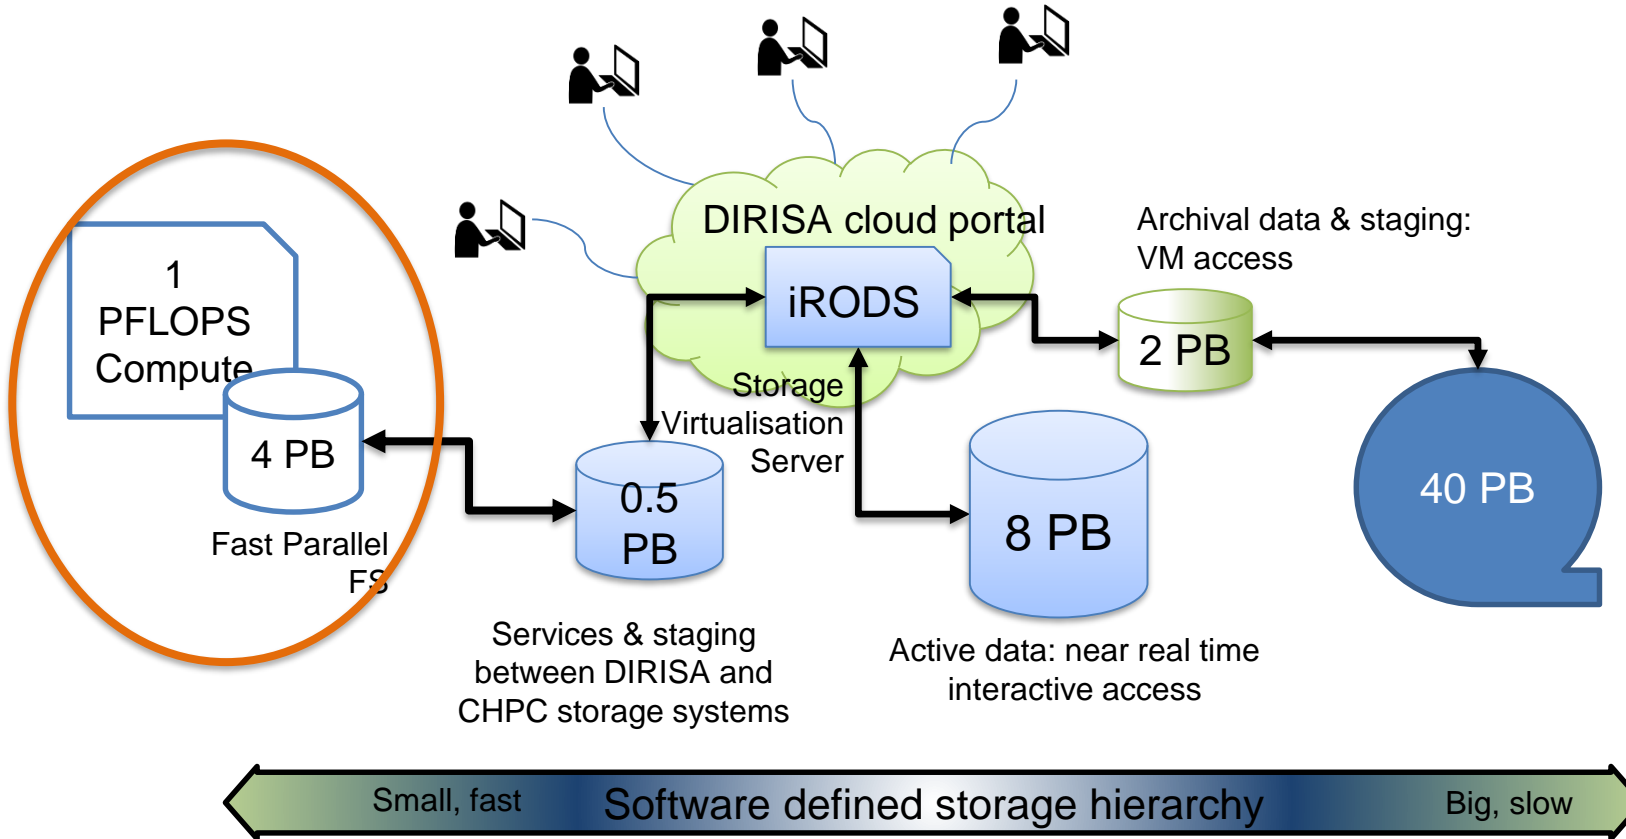

- Common services between any two entities of NICIS
- Intersection of the three entities most crucial, as defines the success of overall NICIS.
- Development of cross-cutting skills internally and within the community

Mainly Large Scale Science projects:  
SKA, CERN, 4IR, SADC C.I. Framework,  
Climate Change (e.g. IPCC)

A national initiative of the Department of Science and Innovation and implemented by the CSIR

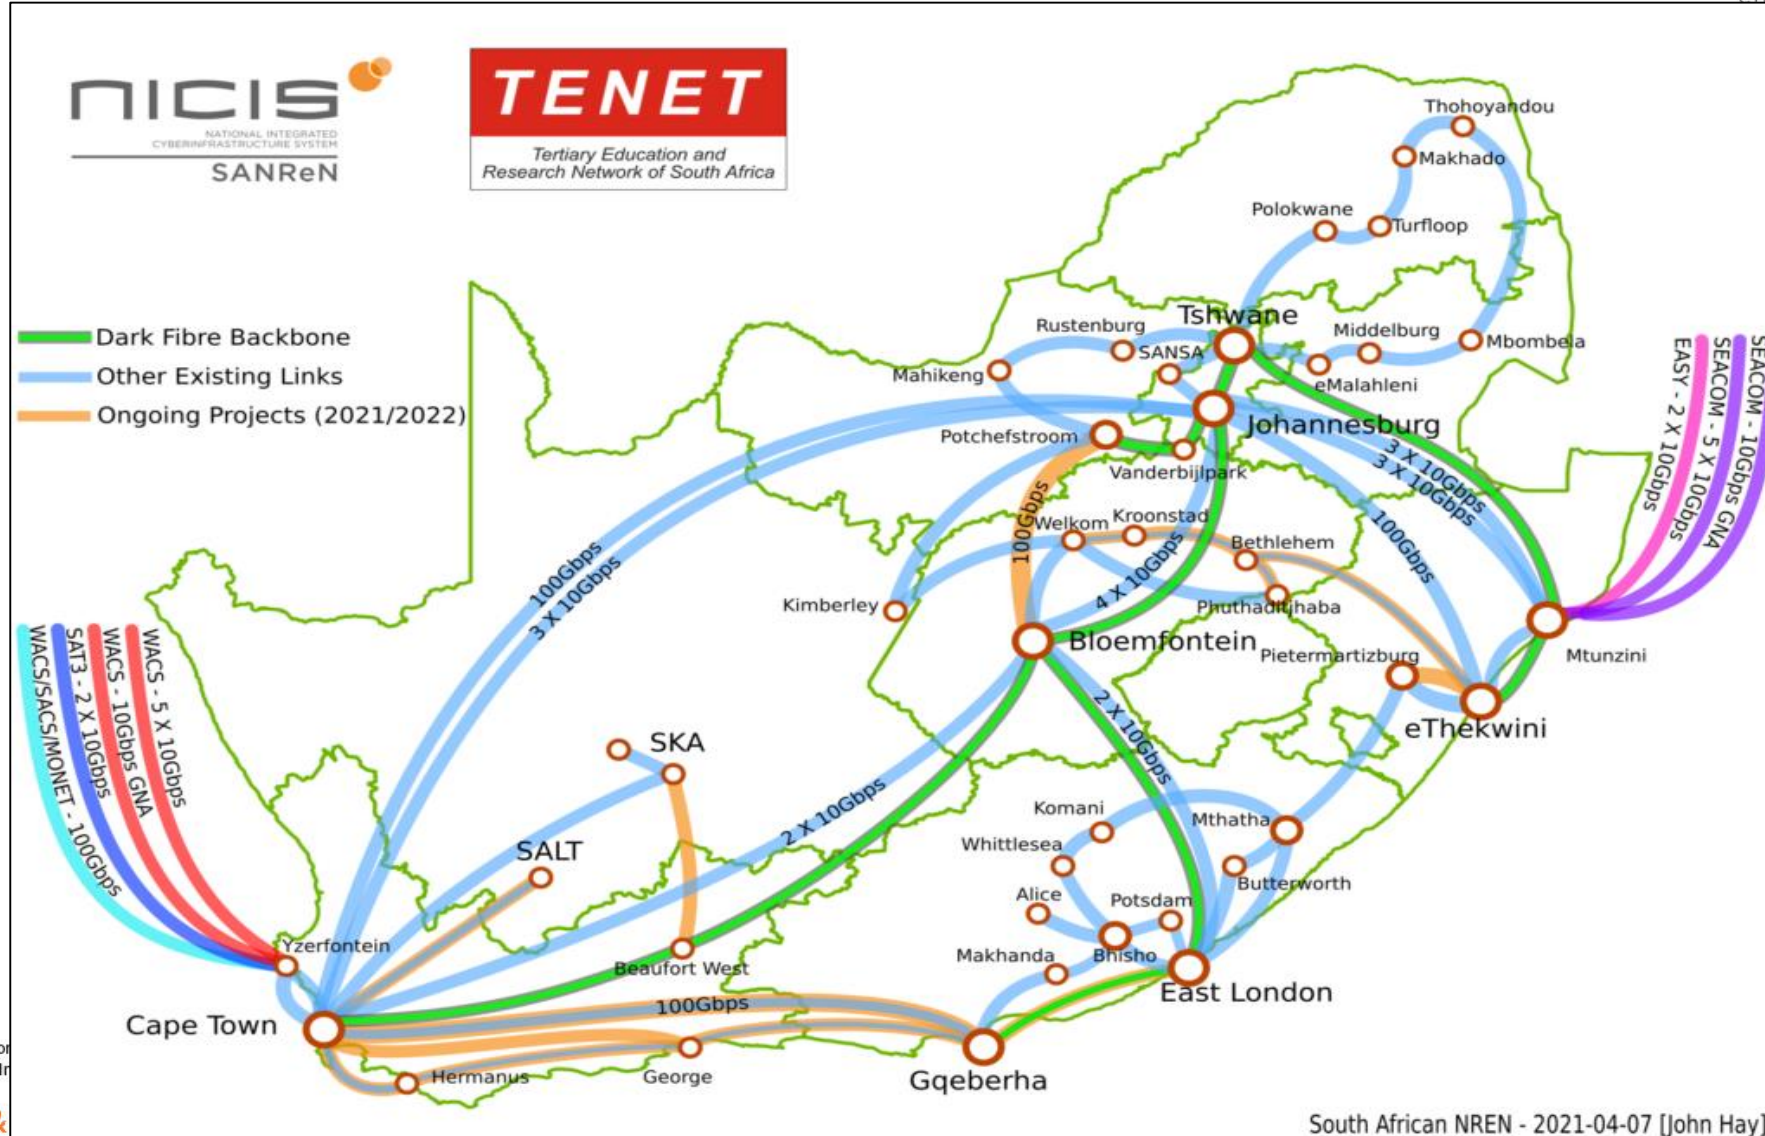

- Open (FAIR) Data & Open Science
- Federated locally and globally (“One-stop-shop” catalogue)
- Certified as Trusted Repository
- Linked to funder systems
- Suite of services for RDM and data intensive analytics

A national initiative of the Department of Science and Innovation and implemented by the CSIR

# Network Infrastructure

# NICIS Platforms

- **Lengau = “Cheetah”**
- **Installed 2015 with 1.6 PFLOP performance**
- **1 345 Nodes of INTEL processors**
- **Rear-door water cooling system**
- **7 Petabytes of Lustre storage**
- **Close to 100% utilisation**

- **GPU Cluster with 9 Nodes each with 4 NVIDIA – V100 processors.**
- **Mainly used for Machine Learning, Artificial Intelligence and Materials Science applications.**

- **OpenStack Cloud named SEBOWA**
- **52 Nodes with INTEL processors**
- **Installed in March 2020**
- **Used for many applications including COVID-19 Data Services**

- **CERN Tier-2 Grid facility**
- **Supports ALICE and ATLAS experiments**

of the Department of Science  
and implemented by the CSIR

# Research in Technology

and Innovation and implemented by the CSIR

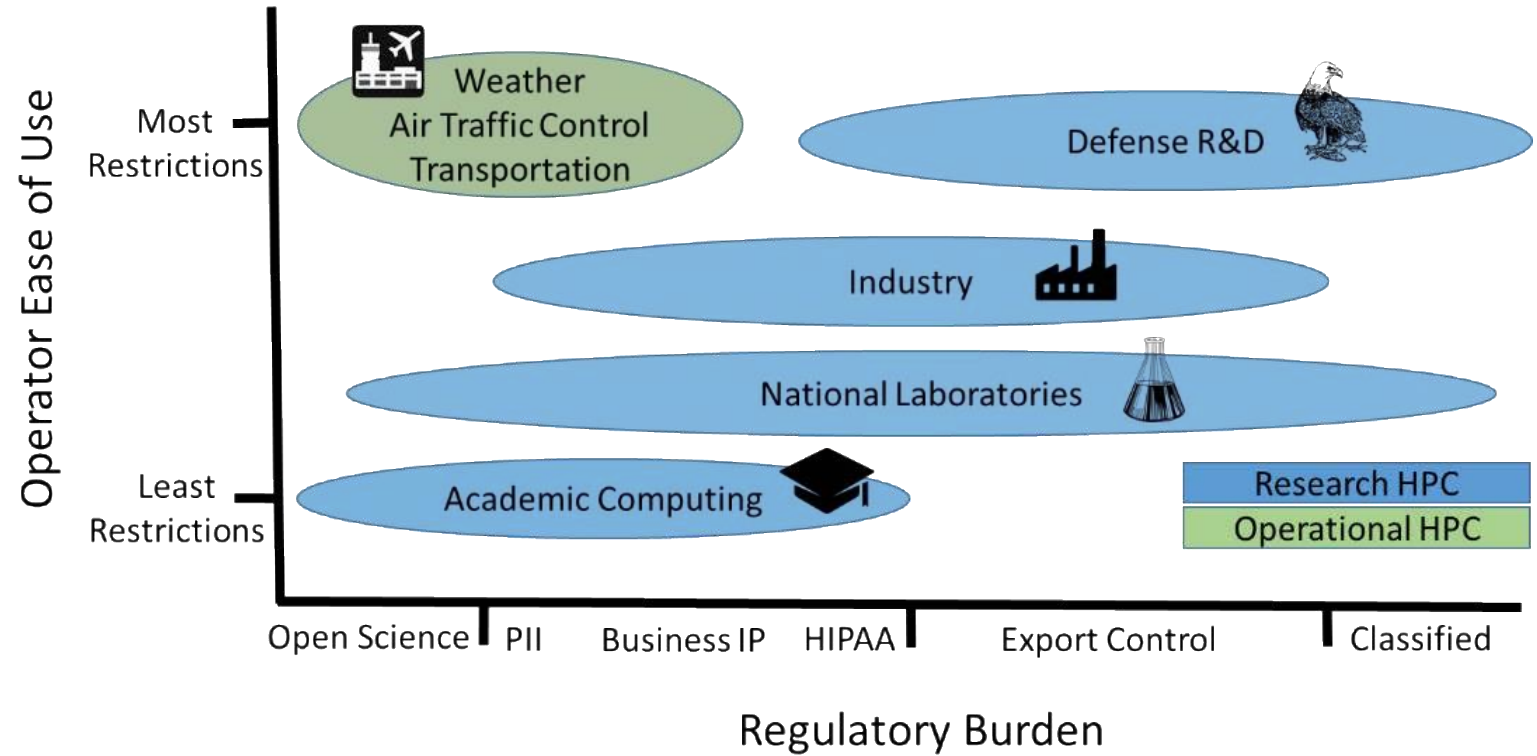

- Evaluate technology for HPC and cloud
- Investigate and develop technology to improve HPC systems
- Provide a consulting service for HPC and cloud technology
- Collaborate with users with special applications to drive efficiency
- Operate experimental systems

# User Categories

# Use Cases of HPC Platforms

- Various stakeholders in this spectrum require different levels of security protocols
- Some of restrictions might be from Legal obligation to provide security for sensitive information

A national initiative of the Department of Science and Innovation and implemented by the CSIR

# Cybersecurity in platform economy

In an era of digital transformation, the platform economy is rapidly growing in Africa, offering numerous opportunities for economic development and innovation

However, this growth comes with increased cybersecurity challenges that require our attention

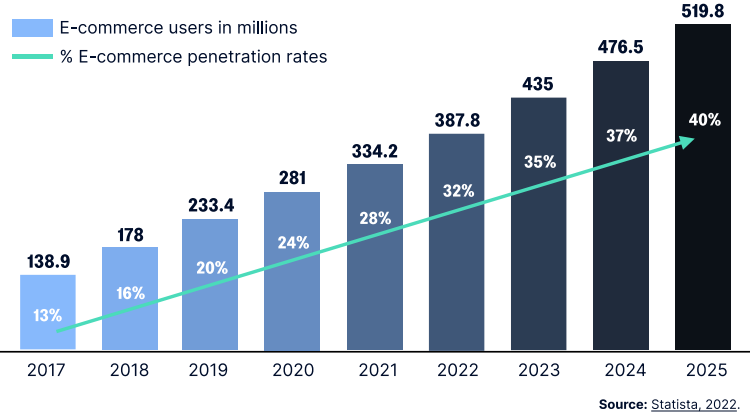

A national initiative of the Department of Science  
and Innovation and implemented by the CSIR

**science & innovation**  
Department  
Science and Innovation  
REPUBLIC OF SOUTH AFRICA

## COMPOUND ANNUAL GROWTH RATE (CAGR)

**519.8 Million Users of ecommerce by 2025**

## PHONES OVER WALLETS: WHEN AFRICANS PAY, THEY USE CELL PHONES

Mobile money transaction values grew 39% in the continent in 2021. The \$701.4 billion in Africa corresponds to about **70% of global values**.

Mobile money allows customers to **receive, deposit, and send money** using a virtual wallet on a mobile phone.

The service is provided by telecom companies, mobile money operators, payment service providers, or banks.

There are **no physical branches**, and the service works through local agents, who facilitate the use of the account and perform cash-in and cash-out transactions.

A national initiative of the Department of Science and Innovation and implemented by the CSIR

## GROWTH OF MOBILE MONEY IN AFRICA

As a **more accessible payment option**, mobile money has overcome barriers usually imposed by the traditional financial sector. In 2021, the vast majority of new active (30-day) mobile money accounts were added in Africa and Asia.

**\$701.4 Billion**

## A DEEP DIVE INTO KENYA, NIGERIA, AND SOUTH AFRICA

### KENYA

One of the fastest growing economies in Africa

**Capital city:**  
Nairobi

**Region:**  
Sub-Saharan Africa

**Currency:**  
Kenyan Shilling (KSH)  
USD/KSH = 117,8

**Population:**  
53.7M

**24%**  
of the population in Kenya buy online

**90%**  
of online shoppers buy in smartphone

### NIGERIA

Africa's most extensive connectivity economy

**Capital city:**  
Abuja

**Region:**  
Sub-Saharan Africa

**Currency:**  
Nigerian Naira (NGN)  
USD/NGN = 359,2

**Population:**  
206.1M

**26%**  
of the population in Nigeria buy online

**88%**  
of online shoppers buy in smartphone

### SOUTH AFRICA

The second-largest economy in Sub-Saharan Africa

**Capital cities:**  
Cape Town, Pretoria, Bloemfontein

**Region:**  
Sub-Saharan Africa

**Currency:**  
Rand (ZAR)  
USD/ZAR = 16,5

**Population:**  
59.3M

**41%**  
of the South African population buy online

**82%**  
of online shoppers buy in smartphone

Source: Statista Country Report, 2021.

**41% of South African buy online with 82% using smart phones for transactions**

# Typical Cybersecurity threats

Phishing attacks

Malware and ransomware

DDoS attacks

Insider threats

Lack of digital security infrastructure

Hacking

A national initiative of the Department of Science and Innovation and implemented by the CSIR

# Strategies to enhance cybersecurity

Cybersecurity awareness and education

Regular security assessments and audits

Adoption of robust encryption and authentication measures

Collaborative efforts between business, governments and cybersecurity experts

A national initiative of the Department of Science  
and Innovation and implemented by the CSIR

**science & innovation**  
Department  
Science and Innovation  
REPUBLIC OF SOUTH AFRICA

# CSIRT Services

Vulnerability assessments (3 different scans, aggregating results and presenting in actionable report)

Alerts (correlation of threat intelligence feeds and send to institutions)

Announcements of interesting and relevant information security.

Incident response support and coordination

A national initiative of the Department of Science and Innovation and implemented by the CSIR

# Attacker gathering system vulnerability

# Skills development initiatives

## Cybersecurity challenge for undergraduate students

## Collaboration with university in pursuing research in cybersecurity

- Over 600 students from various institutions
- Finals held during Annual HPC Meeting
- Capture the flag, Attack and Defend, Decoding Hashes and Social engineering

Rank	Score	Group	3038	3041	4221	4222	4223	5137	5145	5211	5213	5220	7051	7206	7366	7551	7555	7699	2715	4240	5047	5068	7207	7358	7687	7802	7354	7550	7553	7686	7705

A national initiative of the Department of Science and Innovation and implemented by the CSIR

# Recommendations

Use data analytics to optimize threat detection and response

Plan for and Invest in organization wide posture in resilience

Embrace functional convergence – collaboration on security within organisation

Focus on the foundational - lack of basic IT hygiene is security risk

Cloud security is key – more rigorous cloud workload hardening

A national initiative of the Department of Science  
and Innovation and Implemented by the CSIR
