WHO ARE WE

We are an accomplished Software Development and Online Marketing company . We have more than 5 years experience in services we provide, suggesting we relatively knowledgeable in this industry

SOFTWARE DEVELOPMENT

Software development company that offers top-rated Software Development Services due to our vast experience

BRANDING

We in-house some of the best graphic designers with great a sense of acute design

HOSTING

Local South African Web Hosting. PHP, MySQL and easy App Installer. World-class, real-time Registration, Transfer and Management Engine

ABOUT DATAMASTER

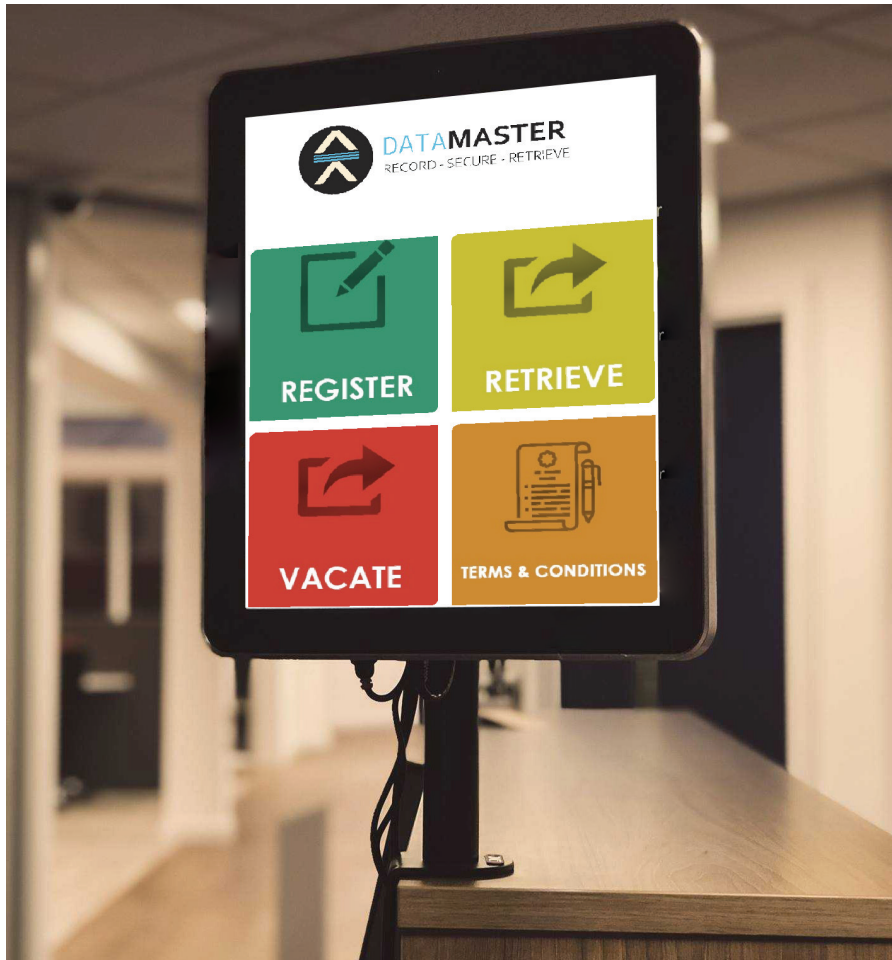

Advanced visitor management for the companies advancing our world. As a tech company, you live and breathe all things digital. So why do you have that paper sign-in sheet at your front desk? Establish your brand image as a modern tech company the second someone walks in your door with our cloud-based visitor management system.

TRADITIONAL VISITOR BOOKING

- Paper visitor book
- Fail to provide an instant list of who is signed in
- Old-fashioned and inefficient
- Store the information captured insecurely
- Fall short of giving your visitors a good first impression
- Difficult and time-consuming to pinpoint visitor history

AUTOMATED VISITOR MANAGEMENT SYSTEM

- Equips you with a real-time list of everyone signed in
- Stores data and visitor history securely in the cloud
- Delivers an outstanding visitor experience
- Complies with POPI Act
- Provides a paperless entry process

KNOW WHO'S IN YOUR BUILDING AT ALL TIMES

And keep your check-in data secure and accessible in the cloud from any device

- **SECURE HOSTING**
- **CLOUD-BASED VISITOR LOG**
- **SEARCHABLE VISITOR REPORTS**
- **CONFIGURABLE DATA RETENTION OPTIONS**
- **SCHEDULED EXPORTS**

APPLICATION INTEGRATION

PREDICTIVE ANALYTICS AND PROACTIVE SECURITY
