# Problem Statement

**Tourism entrepreneurs, and cultural custodians** within townships and villages have a **wealth of untapped offerings**, but struggle to **connect with a global audience**. There is a pressing need for **responsible and sustainable tourism** practices that ensure that economic benefits are felt at the grassroots level, rather than concentrated in select areas.

# Why we exist?

# Our Solution?

**Market Access**

**Economic Data**

**Explore New Tourism Products**

# Key features of our Platform?

**Personalization:** Travelers are increasingly looking for personalized travel experiences, and we leverage data and machine learning algorithms to provide personalized recommendations based on travelers' preferences and behavior.

**Mobile optimization:** With more travelers using their smartphones to book travel arrangements, we are **a mobile-first approach**, with a **user-friendly interface optimized for mobile devices**.

**Integration with multiple suppliers:** To provide a wide range of travel inventory, travel booking engines need to integrate with multiple suppliers, including **accommodation, transfer companies, and tour operators**.

**Security and privacy:** With the increasing threat of data breaches and cyber attacks, **we prioritize security and privacy to protect users' personal and financial information**.

**Sustainable travel:** Travelers are increasingly conscious of their environmental impact, and we will help promote sustainable travel options, such as eco-friendly accommodations and carbon-offset programs.

# Our Success?

- Formed a great partnership with **South African Township And Village Tourism Organisation (SATOVITO)**
- We were recently chosen by **google as part of top three companies** to participate on their programs through Hustle Academy (From 150 companies applied)
- We were **named top 10 tourism buyers during the Africa's Travel Indaba** hosted in Durban.

**HELP!**

# We need Assistance

**Funding**

**Digital Solutions Support**

**Market Access**

**Strategic Partnership**

**Business Development**

# Danko
